CHURCHILL DOWNS

This is to advise you that NBCUniversal Media LLC has acquired the exclusive worldwide media rights to the 2023 Kentucky Derby, Kentucky Oaks, Kentucky Derby Undercard and Kentucky Oaks Undercard. NBCUniversal Media LLC's exclusivity extends to all television media in the United States, its territories, and possessions (the "Broadcast Territory"). The NBC Sports Telecast schedule for the Event is as follows (each, a "Telecast"):

- Kentucky Oaks: Friday, May 5, 2023 1:00 PM-6:00 PM Eastern (USA Network)
- Kentucky Derby: Saturday, May 6, 2023 12:00 PM-7:30 PM Eastern (NBC)

We expect you to honor NBC's exclusivity by not utilizing in any form NBC's pick-up of the Event(s) and by not televising any excerpts from the Event(s) in the Broadcast Territory even if coverage is supplied to you by other broadcasters, cablecasters, news services, or by any other means.

Within the Broadcast Territory, for a 48-hour period, beginning after the conclusion of each Telecast, you may, for news access purposes only in regularly scheduled bona fide news programming, televise excerpts from each such Telecast under the following conditions:

- Each excerpt shall not exceed 30 seconds in duration and two minutes in the aggregate during any one news program.
- These excerpts are limited to competition footage only (no audio, no feature material, no interviews) and must be taped off-air from the Telecast.
- Excerpts must contain the NBC translucent bug, which may not be altered or eliminated in any manner whatsoever, and must also be accompanied over the footage by the following video credit, displayed for the duration of the clip: "Courtesy of NBC Sports."

Under no circumstances may highlights of the Event be broadcast in any media prior to the completion of the Telecast of the applicable Event in that market. Please note that the Telecast should not be considered completed until the conclusion of a post event show, if any.

Please note that under no circumstances may audio or video excerpts be used on the Internet or any other interactive multimedia platform at any time.
